

In 2017, Dreams Soar launched a global flight around the world to introduce Science, Technology, Engineering and Math (STEM) education and Aviation careers to young girls and boys. The flight was piloted by our Founder and President, Shaesta Waiz, who became the youngest woman in history to fly solo around the world upon completing the around the world flight. With support of Dreams Soar team on the ground, and with sponsorship from many individual and corporate donors, Dreams Soar flew over **24,000** nautical miles across **five continents**, making **30 stops** in **22 countries** and inspiring **over 3,000 youth** through **32 outreach** events worldwide. The 2017 Global Flight for STEM was just the beginning of Dreams Soar's mission to inspire the next generation, especially young children in underprivileged regions.

Since the completion of the Global Flight for STEM on October 4, 2017, Dreams Soar has elevated its mission around the globe. Organizations from around the world have collaborated with us to impact the youth of all ages, from varying cultures and from different socioeconomic backgrounds by introducing them to STEM and aviation education.

Since completion of the 2017 flight, Dreams Soar has...

- ✈ *Participated in 25 Outreach events worldwide*
- ✈ *Inspired an additional 8,384 young girls and boys, bringing our total number of directly inspired youth to over 11,000*
- ✈ *Inspired children and young adults in 9 countries*

United States

Canada

Mexico

Greece

United Arab Emirates

France

United Kingdom

Switzerland

Afghanistan

"Since I was a little kid I have always wanted to work in the aviation industry. I love to fly a lot and now I know I can work as a pilot. You (Shaesta Waiz) have taught me and many other girls that pilots can be girls too." -Addie from Columbus, Ohio

Dreams Soar has partnered with **29 host organizations**, several schools and many STEM organizations since completion of the Global Flight. Here are just a few of our esteemed partners:

“ORBAA’s partnership with Dreams Soar created a model for aviation lesson plans. There was nothing more rewarding than seeing thoroughly enjoying themselves while learning.” -Lisa from ORBAA

Traditional media outlets have been featuring new articles about Dreams Soar, and we estimate 40-50 news articles have been published since completion of the Global Flight. In addition, we have been featured on the covers of four international magazines in 2018.

Our work with the next generation does not stop here. *Join us, as we continue our efforts in inspiring children through STEM and Aviation focused outreach events hosted in the United States and around the world.* The next generation is waiting on you...
